

LEED Credits Available for Gym Floor Components

Advanced Polymer Technology is dedicated to supplying its customers with quality products that not only possess exceptional physical properties, but also contribute to a “greener” environment.

The following products could help in contributing towards gaining LEED points and certification:

Regional Material: 1-2 points

APT manufactures its products in Harmony, Pennsylvania. If your project site is within 500 miles from this location then APT products can contribute towards LEED points.

Recycled Content: 1-2 points

SRB rubber provided by Advanced Polymer Technology is made from recycled material.

Pre-made rubber mats provided by Advanced Polymer Technology are composed of recycled material.

Low Emitting Materials: 1 point

Qualipur 1030 VOC ~ 92 g/L

Qualipur 1230 VOC ~ 97 g/L

Qualipur 2503 VOC ~ 0 g/L

Qualipur 4500 VOC ~ 0 g/L

Qualipur 5252 with pigment

VOC ~ 09—11.2 g/L

Qualipur 5610 VOC ~ 8.07 g/L

Qualipur 6510 VOC ~ 41 g/L

Qualipur 7610 VOC ~ 41 g/L

Rapidly Renewable Materials: 1 point

Qualipur 4500 ~41.2%

Qualipur 5610 ~ 55.38%
